HONOLULU (AP)—An atomic explosive was set off nearly 100 miles high today by the United States. The test, carried out at Johnston Island in the Pacific, apparently was part of the effort to develop an antimissile missile.

An official announcement by the Atomic Energy Commission and Defense Department said only that a test detonation of an atomic warhead in a missile occurred above the island, 700 miles southwest of Honolulu. The blast was described as part of this summer's nuclear weapons test series in the Pacific.

However, first indications were that an Army Redstone ballistic missile was used to send the nuclear-loaded nose to an altitude approaching 100 miles.

This is about the point to where the earth's atmosphere disappears entirely and the void of space be-

Sessions begin with registrations at 4 p.m. this afternoon in the SCA building. The first of three panel presentations, "A Look at the Ministry," is scheduled for this evening. A group of pastors will represent the rural church, the urban church, home and foreign missions, the institutional ministry, and general church work.

## President Invites Russian Premier To Summit Session Aug. 12 In U.S., Elsewhere

By JOHN M. HIGHTOWER  
WASHINGTON (AP)—President Eisenhower wrote Soviet Premier Khrushchev today that he is seeking a summit meeting of the U.N. Security Council about Aug. 12 in New York or elsewhere and he hopes Khrushchev will attend.

In a letter to the Soviet government chief, Eisenhower sharply challenged what he said was Khrushchev's effort to set up a system of big-power dictatorship such as "you imposed in Eastern Europe."

"The United States cannot accept that point of view," Eisenhower wrote, in declaring that a meeting of heads of government on the Middle East crisis must be held within the framework of the U.N. Security Council.

**Rejects Red Contention**  
Eisenhower rejected Khrushchev's contention that the central trouble in the Middle East at the moment is "aggression" by the United States against Lebanon.

The real problem, the President said, is "the threat, by others, of further indirect aggression against independent states."

Percival Nelson, 78, of 26 Chambersburg St., was admitted to the hospital after his removal there by ambulance. His 80-year-old wife, Mrs. Ila Nelson, was treated for a fractured left wrist.

The plight of the couple was discovered by George S. Lambert, agent for the Prudential Life Insurance Co., about 5:30 o'clock Thursday evening when he returned to the insurance company office, adjoining the apartment of Mr. and Mrs. Nelson.

**Asked For Help**  
The door to the Nelson apartment was open and Mrs. Nelson was at the door. She asked Lambert to "help pick up the mister."

He entered the apartment and found Mr. Nelson lying on the floor apparently unconscious. Mrs. Nelson, he noticed, had a "bad looking" left wrist.

Lambert talked to Mr. Nelson and roused him sufficiently to learn that he had fallen about 6 o'clock Thursday morning. Mrs. Nelson said she had attempted to catch her husband as he fell, and suffered the fractured wrist.

**Had Not Rapped**  
Both Mr. and Mrs. Nelson were reported by Lambert as being "rather feeble and crippled up." Mrs. Nelson had been bedfast a number of times recently.

Asked why they had not rapped on the wall of the Prudential office adjoining, the couple said they had not heard anybody about the office, and did not know anyone was there. The office had been open throughout the day and in addition to the office force there had been a number of visitors.

Lambert called the Warner Hospital which in turn notified the fire company ambulance to bring the couple there.

## BANK ROBBERS CAPTURED AFTER BRIEF BATTLE

ELVERSON, Pa. (AP) — Two men who robbed a bank Thursday stuffing more than \$25,000 in cash and bonds inside their sports shirts, were captured two hours later in a wooded area.

Leonard T. Ivey, 24, of Covington, Ky., was wounded in a brief gun battle as 75 state troopers and FBI agents closed in.

The loot—\$10,500 in cash and \$15,190 in bonds—was recovered. It was spilling out of their shirts. Clyde Cope, 41, of Cincinnati, Ohio, surrendered first, walking out of the woods to the highway with his hands up. He had a .38 calibre revolver police said.

Then Ivey shouted, "I won't try anything. I don't want any more bullets pumped into me." He threw away his sawed-off shotgun and was carried from the woods on a stretcher, wounded in the leg and back.

Ivey was in fair condition at a hospital. Cope was charged with armed robbery at a preliminary hearing Thursday night, and jailed.

Called Professionals  
Police, who described the men as professionals, said they barged into the Elverson National Bank 25 miles from Philadelphia after the noon hour rush and shouted, "This is a stickup."

They ordered three employees to stand still. The door to a teller's cage was kicked in and the men were scooping up money when Earl Witmer, president of the bank, pulled the trigger on his revolver.

But the safety catch was on and the two spotted him. The men dashed out a door, passing a cashier coming in, and drove off in a car which police said had been stolen earlier. The cashier was able to give a description of the car and this led to the capture.

on the election.  
Shehab is expected to withdraw Lebanon from its position of the Arab nation most closely allied with the West. He is believed to favor truly impartial neutrality rather than the brand of anti-Western neutrality inspired by President Nasser of the United Arab Republic and supported by some Lebanese rebels.

## 7 Judges Will Hear Little Rock Case Starting Monday

By AL DOPKING

ST. LOUIS (AP) — The seven judges who will hear the Little Rock integration case appeal Monday come from states where racial problems are remote.

But they are not strangers to the Little Rock case. As members of the 8th U.S. Circuit Court of Appeals, they have dealt with it three times. Each time they ruled in favor of integration.

This time, the case is back on an appeal by the National Assn. for the Advancement of Colored People from a U.S.-District Court order postponing integration at Little Rock's Central High School for 2½ years.

High Court In Recess  
The Supreme Court is in recess until October and the appellate court's decision will decide whether seven Negro pupils can return to Central, where integration was enforced last year with federal troops.

Who are these seven judges? Most of them come from the upper Midwest. Of the seven states in the district, Arkansas alone has no member of the bench.  
There is the chief justice, Archibald K. Gardner of Huron, S. D., at 90, he is the oldest active federal judge in the nation.

Other members of the court are Joseph E. Woodrough, Omaha; John B. Sanborn, 74, St. Paul; Harvey M. Johnson, 63, Hastings, Neb.; Charles J. Vogel, 60, Fargo, N.D.; Martin D. Oosterhout, 58, Orange City, Iowa; and Martin C. Matthes, 52, St. Louis.

Gardner, Sanborn, Oosterhout and Matthes are Republicans.  
Sanborn, a widower, points out rather tartly he was around long before the integration cases. He and Johnson upheld the original Little Rock integration order. They also upheld Dist. Judge Ronald E. Davies of Fargo, N.D., in enjoining Gov. Orval Faubus from using National Guardsmen to keep nine Negro students out of the school last fall.

Decision Early  
No one expects a decision Monday. It generally takes several weeks. In this case, it may come within days. The Circuit Court has been reminded by the Supreme Court that time is important because of the approaching school term.

The integration delay was ordered by U.S. Dist. Judge Harry J. Lemley of Hope, Ark., at the request of the Little Rock school board to allow a peaceful interlude.

## 2 Lifeguards Herd Whale Back To Sea

LONG BEACH, Calif. (AP) — Lifeguards Victor Higgins and Bill Blackburn can prove quite discouraging to a whale.

When a 35-foot whale swam through the breakwater Thursday and headed for the beach, the lifeguards roared out in a speedboat. Every time the whale surfaced to spout they whizzed by him so the wash from the boat would slap against him.

By repeating the maneuver a dozen times they herded the whale back out through the breakwater into the open ocean.

in Moscow.

"The memory of the well-organized mass demonstration and serious danger to the United States Embassy in Moscow is too fresh in the minds of the American people," Eisenhower said.

The demonstrations were directed against United States landings in Lebanon. The State Department took the position they were organized by the Soviet government.

The embassy building was spattered with ink, suffered broken windows and other damage.

In his discussion of indirect aggression, Eisenhower was putting into formal words much the same thing that Secretary of State Dulles said on the subject at a news conference Thursday.

"If the Soviet Union does not want war they will attempt to agree that these practices should be brought under some kind of control by the United Nations," Dulles said.

## Ban Trespassers From School Site

W. R. Oyer, Inc., constructors of the new Eisenhower school, E. Broadway, today announced plans to prosecute persons trespassing on the new school property "before somebody gets hurt."

Richard Oyer, project superintendent for the construction work, said today that youngsters playing around the new school grounds Thursday night broke two new ladders and threw a large number of stones into holes "which had to be removed again today by the workmen."

Oyer said he didn't mind the depredations so much as he fears that "someone will be badly hurt. There is a great amount of steel sitting around there and kids clambering on it could topple it over on themselves. There are also a number of open ditches and holes into which children could fall. With the number of children playing on the grounds we are afraid that someone will be seriously hurt. For that reason we have posted no trespassing signs and will have to prosecute in order to protect everyone."

## JULY IS POOREST MARRIAGE MONTH

Marriage license "business" declined during July, according to the monthly report of the county clerk of courts.

Last month only ten permits to wed were issued, the smallest number since February 1955 when ten licenses were also granted.

So far this year 158 marriage permits have been issued by the clerk compared to 163 for the same seven months of 1957.

The month by month report shows these numbers of wedding licenses granted during 1958: January 21, February 14, March 18, April 24, May 28, June 43, and July 10. In 1957 the number issued were: January 11, February 25, March 12, April 24, May 29, June 40, and July 22.

## OPERATES WITH SIGN LANGUAGE

MOSCOW (AP)—An American surgeon began operating on a young woman's heart without being able to ask the Soviet nurse for a scalpel or suture.

But Dr. Walter J. Burdette of Salt Lake City, Utah, worked out a sign language system with the nurse at the suggestion of a young man from Peiping who was his interpreter.

The doctor spoke no Russian, the nurse no English, and interpreting would have been too slow. Opening and closing two outstretched fingers meant scissors, and clenching the fist meant forceps.

"Worked Beautifully"

"It worked beautifully," said Dr. Burdette, a member of the University of Utah medical faculty who has been visiting Soviet medical institutions on a trip partly sponsored by the Rockefeller Foundation.

The operation was performed on a 25-year-old woman with a damaged heart valve. Dr. Burdette said she is doing fine.

The Utah surgeon spent several weeks in the Soviet Union inspecting surgical methods and facilities of other countries for possible application at the Utah Medical Center now under construction.

## Store Owner Shot; Two Youths Held

GLENOLDEN, Pa. (AP) — A furniture store owner was shot in the chest Thursday by a youth who had ordered him to lie on the floor of his shop.

The shot was not heard by evening shoppers in this Delaware County community, and Salvatore Meloni, 41, had to crawl out to the sidewalk to get help.

He was reported in fair condition today at Fitzgerald Mercy Hospital in nearby Darby.

Later two 16-year-old boys from Folcroft were arrested. Police said Thomas Morgan admitted firing the shot, but maintained the gun went off accidentally.

They said a .22 calibre revolver was taken from Morgan and a switchblade knife from David Boyd.

The boys were accused of attempting to rob Meloni. Descriptions furnished by the wounded man led to their arrest.

No charges were filed immediately against the two.

STREAMLINER IS DERAILED

MILWAUKEE (AP) — A speeding cross-country streamliner suddenly began to rock and sway and in a matter of moments 11 cars careened off the rails, injuring 53 of its 497 passengers.

The last six cars of the Milwaukee Road Olympian Hiawatha whiplashed off the tracks and slid down a 20-foot embankment as the train raced into southern Milwaukee County at 90 miles an hour Thursday. About 1,000 feet ahead, the diesel-powered engine ground to a stop, five more cars tilting off the rails. All the cars remained upright.

Authorities said most of the injuries were minor.

The train was bound from Chicago to Seattle, Wash.

Cause of the wreck was undetermined.

## Yorkers Are Accused Of Blackmail In Shoplifting

YORK, Pa. (AP)—An alderman awaited a hearing today on charges that he conspired with other men in an alleged scheme to gain money from persons brought before him.

Alderman Paul C. Barnhart, 32, was arrested and charged with the alleged offenses Wednesday. A hearing on the charges is scheduled Aug. 8.

Also charged with criminal conspiracy were Gordon E. Ward, 46, deputy constable, and Earl J. Greenhold, manager of a York food market, Charles L. Glacklin, owner of the food market, was charged with blackmail in a separate action.

Glacklin was free on \$500 bond and the other three each posted \$1,500 bond.

Dist. Atty. Frank B. Boyle said the alleged conspiracy was a "shakedown of persons charged with shoplifting." He said the arrests were made after a joint four-month investigation by his office and the state police.

In a hearing before Judge George W. Atkins Thursday, Barnhart won a preliminary injunction forbidding authorities from retaining or copying his records. The alderman charged that efforts to confiscate his records was "unreasonable search and seizure."

A hearing to determine if the injunction should be made permanent is scheduled Wednesday.

STREAMLINER IS DERAILED

MILWAUKEE (AP) — A speeding cross-country streamliner suddenly began to rock and sway and in a matter of moments 11 cars careened off the rails, injuring 53 of its 497 passengers.

The last six cars of the Milwaukee Road Olympian Hiawatha whiplashed off the tracks and slid down a 20-foot embankment as the train raced into southern Milwaukee County at 90 miles an hour Thursday. About 1,000 feet ahead, the diesel-powered engine ground to a stop, five more cars tilting off the rails. All the cars remained upright.

Authorities said most of the injuries were minor.

The train was bound from Chicago to Seattle, Wash.

Cause of the wreck was undetermined.

## PROPOSED ROAD CHANGE TO SAVE PA. \$47 MILLION

HARRISBURG (AP)—Highways Secretary Lewis M. Stevens disclosed today traffic studies are under way on a proposal by foes of the Anthracite Expressway to run the north-south interstate road west of the Susquehanna River.

He said Gannett, Fleming, Cordry and Carpenter, a Harrisburg engineering firm that recommended the original route through the hard coal counties, is conducting the new survey.

"The department and the U.S. Bureau of Public Roads have requested this study in view of the report made by McNeil at a recent public hearing," Stevens told The Associated Press.

He referred to Donald M. McNeil, a Pittsburgh traffic engineer employed by the Susquehanna Economic Development Assn., who claimed \$47 million dollars could be saved by building the road west of the river.

Uses Part Of Shortway

The McNeil report recommended that the road proceed along U.S. Route 11 from near Harrisburg to Selingsgrove, from there to the proposed Keystone Shortway, and then using a portion of the Shortway for the expressway to Hazleton.

Under present plans approved by both federal and state officials the Expressway would run from Scranton through Luzerne and Schuylkill counties before swinging into the Harrisburg area.

A public hearing at Hazleton saw overwhelming approval expressed for this route but the SEDDA insisted that new traffic studies be conducted in the light of the McNeil report.

Stevens said the traffic studies would wind up by the end of the month.

was exploded at a height about three miles above the earth.

**Short Range Weapons**

The Defense Department announced May 2 that the tests at Johnston Island would be for short range defensive missiles with nuclear warheads. It said the missiles would travel less than 200 miles.

The exact type of missile was not disclosed but the description as defensive fitted the Navy's talos, the Army's Nike Hercules or a test vehicle version of the Nike Zeus, the first U. S. anti-missile missile.

Today's explosion was the 15th to be announced in the Pacific series that began April 28. The other blasts have occurred at the Eniwetok atoll, roughly 1,500 to 1,700 miles southwest of Johnston Island.

**Danger Zone**

The announcement designating said that the surface danger area would remain in effect for three or four weeks. All ships were cautioned to stay clear during that period.

Today's explosion was the first time that any of the U. S. or British nuclear tests in the Pacific have been observed in Hawaii. Other U. S. nuclear testing grounds in the Marshall Islands are at least 2,000 miles from Honolulu and the British site at Christmas Island is more than 1,100 miles away.

### FIFTEEN YEARS AGO

**Local Guard Unit Drills In McSherrystown:** The Adams county home guard unit, 100 strong, Friday evening made the second in a series of contemplated visits to towns of the county when the unit visited McSherrystown to parade, stage retreat and hold drill.

Because the guard is made up of men from throughout the county, the company plans to visit all sections of the county. The first parade and drill in a town other than Gettysburg was held at Biglerville two weeks ago. Present plans call for visits to Littlestown and Arendtsville in the near future. Capt. C. Arthur Brame, commandant of the company, said today.

**John Basehore Is Appointed Tax Appraiser:** John H. Basehore, local justice of the peace and county Republican chairman, has been appointed county inheritance tax appraiser, replacing Harry L. Cratin, Gettysburg R. 2. It was announced today.

The appointment of Mr. Basehore to the post is part of a transfer of approximately 630 inheritance and mercantile tax jobs from the Democratic Auditor General's department to the Republican Secretary of Revenue as a result of an act of the recent state legislature.

**Eight Counties Donate Third Pint Of Blood:** Eight Adams County towns Friday gave their third pint of blood to be made into plasma for America's armed forces during the seventh monthly session of the Red Cross Blood Donor services here.

Sixty-six of the 117 persons who gave a pint of blood each on Friday were donating for the second time and 33 were newcomers.

The donations brought to 732 pints the amount of blood donations have given since the inauguration of the blood donor system here in January.

The list of those who gave for the third time included Miss Madolyn Culp, Chambersburg street; Mrs. J. W. Stevenson, Orrtanna; Mrs. Clarence Waybright, Gettysburg; Mrs. Charles T. Ziegler, Springs Avenue; Mr. and Mrs. George T. Raffensperger, South Straton street; Lt. D. W. Travis, Baltimore street, and Raymond O. Arnold, Fourth street.

**Physician Returns To Practice Here:** Dr. P. J. McGlynn of Camp Hill, who practiced medicine here from 1934 to 1939, re-opened his offices at 145 Baltimore street, Gettysburg, Wednesday.

Since leaving Gettysburg, Doctor McGlynn took post-graduate work in Chicago and was project surgeon at a Newfoundland Naval Air base and at the Naval Ordnance depot, Mechanicsburg.

**College Grad Gets New Post:** The Rev. Dr. F. Eppling Reinartz, Philadelphia, son-in-law of Mrs. Kathryn I. Martin, West Middle street, has been elected secretary of the Board of Foreign Missions of the United Lutheran Church with headquarters in Baltimore it was learned today.

**Gas Pipeline Nears County Enroute East:** "Big Inch's" little brother, "The Little Big Inch," is about ready to start its trip across Adams county.

The little Big Inch, a 20-inch pipe line to carry gasoline directly from the plains of Texas to Pennsylvania, is being laid parallel to the 24-inch oil carrying pipeline recently completed through the county from Texas to Philadelphia.

**Nurses Aides Get Caps, Join Defense Corps:** Eight nurses aides who recently completed their training under the instruction of Mrs. Sydney J. Poppy received their caps and were inducted into the Civilian Defense Corps Wednesday evening at exercises held at Christ Lutheran church.

The nurses aides who received caps were Mrs. Ralph E. Barley, Mrs. G. Marion Stambaugh, Mrs. Howard Sheets, Miss Winifred Miller, Miss Dolores Smith, Miss Ruth McIlhenny, Miss Mary Catherine

## Today's Talk

### THE OTHER FELLOW'S PLACE

What a wonderful world in which to live if people would only put themselves in the other fellow's place! It makes a lot of difference because then selfishness gets a washing, and instead of anger and bitterness, in their place, we get tolerance and understanding.

In a majority of cases, I believe, all disputes and misunderstandings could end happily if each one of us would just change situations, and the other fellow to take our place, and we to take his. Human nature is the same the world over, regardless of nationality or personal beliefs. If you have a grudge, try getting rid of it by imagining that things are turned around and then expand your heart and bring a little good will and increased happiness into the world!

It is so easy to be pleasant and to get along happily with all our friends and neighbors. Then why do we allow the petty things to keep us from kindness and tolerance? All bitterness has a bit of poison in it, and should be spurned. After every good deed performed a new light appears from behind the dark clouds!

Putting ourselves into the place of another is sure to put one into a new atmosphere — an atmosphere of bigger and better days! We miss so much out of life when we fail to meet the other fellow more than half way. It's all the way when you measure his side against yours. All life is a give and take proposition, but we ought to give at least as much as we take! Best of all is when we give all.

We learn best ourselves when we know our fellow man, and gladly respect his way of life against our own.

Tomorrow Mr. Adams will talk on the subject: "The Coat of Experience"

### THE DREAM DAYS

I like the dream days best of all,  
The hollyhocks against the wall,  
The rambler roses blushing red,  
The blue skies bending overhead,  
With just enough of summer breeze

To whisper in the leafy trees;  
When lazily the play boys plod,  
And lazily the blossoms nod,  
And everything about me seems  
Wrapt up somehow in pleasant dreams.

I like to lie full length and flat,  
And shade my eyes with my old hat,  
Building out yonder in the skies  
Air castles grand whose towers rise

Higher than summer swallows fly,  
The castles of sweet by and by;  
Forgetting are and shirking toil,  
Forgetting just for fame and spoil,  
Just dreaming dreams that won't come true,  
But living as the flowers do.

I like the dream days best, for then

The world's in tune with lazy men;  
The very flowers droop and sway  
In such a restful, lazy way,  
As though they, too, would like to be

Stretched out beneath this tree with me;  
And fleecy, snow white clouds float by

As though no part of earth or sky,  
And far off seem the busy marts  
Where gather shrewd and sordid hearts;

Just roses, hollyhocks and I,  
Dreaming, while Father Time goes by.

## STATE'S FINEST TACKLE NATION IN GRID GAME

HERSHEY, Pa. (AP) — Thirty-three of Pennsylvania's finest high school football players are practicing their hearts out here these days to back up a challenge to the nation.

The young athletes—all of whom graduated from high school this year—are out to prove that the Keystone State produces the best scholastic football players in the country.

And on Saturday night, Aug. 9, the Pennsylvania Big 33 All-Stars will display their wares when they meet the 25 players from throughout the United States deemed the cream of the current graduating class.

**Proof Of Pudding**  
"Pennsylvania produces the best scholastic athletes in the nation and we are going to prove it for once and for all," said Al Clark, sports editor of the Harrisburg Patriot-News and director of the all-star game.

Clark is not all bashful about singing the praises of the athletic products of Pennsylvania's high and junior high schools.

"Pennsylvania supplies the top college football talent for the nation and has been doing it for years.

**Issue Challenge**  
"We have issued the challenge and now we are ready to back up our claims."

For the last 15 years sports authorities have been picking an All America high school football team from among the hundreds of thousands of senior class gridiron stars in the 48 states.

But this is the first time any state has offered to collect the talent from within its borders and call for a game of such wide stature.

**Pick Top 25**  
Already the national field has been narrowed to 50 players. Saturday the group will split into two teams in a game at Memphis, Tenn.

From that fray will come the top 25.

Pennsylvania has four players among the 50 but they will play with their fellow-Pennsylvanians when the all Americas and the Pennsylvania Big 33 meet the following week.

**Ihrle Named**  
The four Pennsylvanians named to the all-American team are:

Conrad Drake, Milton - Hershey; Lynn Drake, Tyrone; John Chis-dak, Scranton Central, and Jack Renwick, St. Mary's.

The Pennsylvania Big 33 will saddle, Kimon Mitchell, William Snyder, William Bushman, William Straley, Bruce Westerdahl, Samuel Solenberger, Charles Kitzmiller and Donald Shultz.

## Tarman Accepts Penn State Post

UNIVERSITY PARK, Pa. — James I. Tarman, formerly director of public information at Gettysburg College, and more recently assistant director of public information at Princeton University, today was named director of sports information at Penn State, succeeding James H. Coogan. Tarman will assume his new duties September 1.

Coogan on July 1 was named director of public information, succeeding Louis H. Bell, who lightened his administrative load on the advice of his physician. Bell will remain on campus as an associate professor of journalism and executive director of the Penn State Press. He and Coogan were associates for the last 15 years.

Son of Mr. and Mrs. James M. Tarman, York, the 30-year-old Tarman was graduated from Gettysburg in 1952 and went immediately to the Harrisburg Patriot-News as a sports reporter. He returned to his alma mater a year later as director of public information. Last year, he joined the Princeton staff as a sports specialist.

Tarman served with a military government team of the U.S. Army in Japan from 1946 to 1948 and currently holds a first lieutenant's commission in the U.S. Air Force Reserve. He is married to the former A. Louise Catalano, of Springfield, who was graduated from Gettysburg College in 1956.

"I just can't get excited about running anymore, he said. "When that happens I figure it is time to quit. I would like another try at the 800-meter record, though."

Courtney will run the 800 Saturday against two Poles and an American, all of whom have broken 1:50 for the distance. The Olympic 800-meter champion's best time is 1:45.8, one-tenth of a second slower than the record held by Roger Moens of Belgium.

The speedy American set the world half-mile record of 1:46.8 last year. The half-mile is five yards, four inches longer than 800 meters.

"There's no doubt in my mind this is my last season," the former Fordham ace said as he joined with his American teammates in the first of the two-day meet against Poland's best men

play under the leadership of Coach Bernie Bierman, former Minnesota mentor and now a columnist for a St. Paul, Minn., newspaper. The proceeds of the game, expected to attract a capacity crowd of 18,000 to the stadium in Chocolate Town, will be given to the Boy and Girl Scouts and the National Paraplegic Foundation.

## SAYS CHAMP IS NOT DOING WELL

OCEANSIDE, Calif. (AP)—Manager Cus D'Amato says that heavyweight champion Floyd Patterson is not coming along the way he should for his Aug. 18 fight in Los Angeles with Roy Harris.

There is even talk in fight circles that D'Amato would like to postpone the fight, but he denied it.

D'Amato says Patterson seems slow in his workouts but he claimed that "manipulations by the International Boxing Club stooges" were to blame. He declined to enlarge on this accusation.

He was especially upset over reports from New York that independent promoter Emil Levine had started negotiations for a Patterson title fight there in October or November.

Harris, the challenger from Cul and Shoot, Tex., has looked good in his workouts at Arrowhead Springs, in the San Bernardino Mountain area.

# QUICK ACTION IS URGED ON SS PENSION BILL

By JOE HALL  
WASHINGTON (AP) — Senate pressures mounted today for quick action on a bill to increase Social Security pensions by 1 per cent in the wake of a 375-2 House vote for the measure.

Some senators said they did not believe their branch could run the political risk of adjourning the 85th Congress without acting on the legislation.

The higher payments had strong election-year appeal despite the bill's provision for a series of tax increases to finance the changes.

Taxes on many workers would go up \$25.50 next year and another \$24 the following year as part of the stepped-up tax schedule.

The House rushed the bill to the Senate after only a few hours' debate. Representatives Noah Mason (R-Ill.) and Bruce Alger (R-Tex.) cast the only no votes.

## Boost Monthly Payments

The measure would boost monthly payments for the 12 million beneficiaries now receiving Social Security insurance checks, and provide higher payments for those retiring in future years.

The benefit increases would take effect Nov. 1 if the bill becomes law in August. Taxes would go up next Jan. 1.

The big obstacle to the bill in the Senate appeared to be the crush of business before the Finance Committee, which must handle it. That group already has on its schedule three bulky tax bills as well as President Eisenhower's request for another hike in the debt limit.

In addition to revamping the Social Security insurance payments, the bill also would increase by 288 million dollars annually federal grants to the states for public assistance programs. These programs provide aid for needy aged, blind and disabled persons and dependent children.

## Increase Benefits

The chief provisions of the bill would raise old age, survivors and disability benefits under Social Security insurance by 7 per cent with a minimum of \$3 a month.

For individuals on the retired rolls, the monthly checks would range from \$33 to \$118 a month, as compared with \$30 to \$108.50 now. In the future, the maximum payment would reach \$127.

The payroll tax, now 2 1/2 per cent each for employer and employee on a \$4,200 wage base, would be upped to 2 1/2 per cent on a \$4,800 base next year.

Another one half per cent would be added in 1960, and the rate would reach 4 1/2 per cent each by 1969.

# TWO KILLED IN TWO ACCIDENTS

LANCASTER Pa. (AP) — Howard W. Espenshade, 55, of Reading and Mrs. Helen McIlvaine, 77, of Lancaster were killed in separate auto-truck collisions Thursday in Lancaster County.

Espenshade was killed in the collision of his sedan and a truck on Route 222 four miles west of Ephrata. The truck driver, H. L. Ray, 72, of Lancaster, and a passenger, Jacob Rohn, 40, of Lancaster R. 7 were thrown on to the highway. Both were taken to Ephrata Community Hospital.

Mrs. McIlvaine was a passenger in a car operated by her husband, Theodore C. 83. The car collided with a truck driven by Aaron W. Snader of nearby Denver. He escaped unhurt. McIlvaine is reported in critical condition at Lancaster General Hospital.

Mr. and Mrs. James Crouse, Wilmington, Del., were Sunday visitors at the home of Mrs. Crouse's mother, Mrs. Ada Keeler.

The Rev. and Mrs. Bela Bucher, Dover; Mr. and Mrs. Harold Bucher and family, Dallastown, and Mrs. Katie Geigley were Sunday visitors at the home of Mr. and Mrs. Monroe Shue.

Mr. and Mrs. Chester Shue and family spent the weekend at Shawnee Lake.

Mr. and Mrs. Harold Martin and sons, Larry and Kenneth, and Miss Margaret Himelright spent Tuesday visiting the Philadelphia zoo.

## COMING AND GOING

ELK GARDEN, W. Va. — Gravedigger Oscar Harold Jackson was waiting to fill in a grave at nearby Hartmansville when he collapsed and died, apparently from a heart attack.

He was taken from the cemetery in the same hearse that brought the body for which Jackson had dug the grave.

1969 instead of 4 1/2 per cent in 1975 as under present law.

The rate for the self-employed now 3 1/2 per cent, would go to 3 3/4 next year and 6 1/4 in 1969.

## Maitland Near Completion Of New Gas Lines

The Maitland Brothers contract to alter the gas meter house and lay three thousand feet of gas line at Gettysburg College will be completed in "about two weeks" according to Roy Geisler, foreman for the Littlestown construction company.

Work under the present contract was begun on July 5 and is to be completed by August 20. Maitland bid \$16,944 for the job.

Most of the three thousand feet

back right now. Every voice, every idea, every effort is needed to keep the wheels turning. We all can visualize the disaster that would occur if a gigantic magnet suddenly pulled all twenty-one million of us working women out of our jobs. Schoolrooms without teachers, shops without salespeople, executives without secretaries, hospitals without nurses, factories slowing to a stop.

"If our salaries (some six hundred million dollars every week) were subtracted . . . but, why think of that? Instead let's reverse the image and visualize each one of us with a shot of adrenalin that would spur us to even better performance. Wouldn't that be a pick-up?"

"America belongs to each one of us. America's success depends on each one of us. This is the moment to give it all we've got."

## Raymond Home Furnishings Offers A Complete Selection Of Top Quality Merchandise

One of the oldest, most reliable  
and dependable names in the  
furniture business in Adams County  
is that of Raymond Home Furnish-  
ings located on Lincoln Square,  
Gettysburg.

J. Herbert Raymond, owner and  
manager of the firm, has had 36  
years of experience in guiding  
people to the right choice in home  
furniture. Mr. Raymond became  
associated with the business in  
1922 and proprietor 12 years ago.  
He has made his firm one of the  
most reliable stores, serving the  
county and surrounding area since  
that time.

When one thinks of furniture the  
immediate thought is that of  
quality. Quality in this sense of  
the word means many years of  
wear and tear on an item at the  
lowest possible price. Raymond  
can give people this quality at  
immediate thought is that of  
reasonable prices and because of  
their many years in business they  
know what the public wants.

### Quality Brands

One reason why people buy at  
Raymond's is because they know  
this is one store where they can  
find the largest line of standard  
brand names. Pennsylvania House,  
the biggest name in dining room,  
living room and bedroom furni-  
ture, is sold at Raymond's.

The Lincoln Square establish-

ment carries a complete line of  
Taylor living room furniture,  
which features modern styling  
with foam cushions with a guaran-  
tee on every piece of constructed  
furniture. Some of the other brand  
names include the quality Sim-  
mons and Englander bedding,  
Mersman internationally advertised  
tables in walnut, oak and mahog-  
any. Raymond is also the exclu-  
sive representative in this area  
of the complete line of Heywood-  
Wakefield furniture.

The most popular rug center is  
also Raymond's because of the  
many types that can be found  
here. The firm carries four dif-  
ferent lines including the famous  
Lee's. Lee's carpets are known  
for their years of durability and  
their constant look of newness.  
Here one can choose a small  
scatter rug, a room size carpet  
or wall-to-wall carpets. The main  
reason for purchasing wall-to-wall  
carpet at Raymond's is the fact  
that one can be sure that it will  
be installed by thoroughly trained  
men.

Mr. Raymond has carefully  
taught these men the art of in-  
stalling a carpet to the custom-  
ers' complete satisfaction.

### Bedroom Furnishings

Many of the men and women of  
the community have solved their  
bedroom furnishings problem  
time and time again by looking  
over the various lines handled at  
Raymond's. For instance there is  
Kling Factories, the largest solid  
bedding manufacturers in the  
United States. One of the best  
known names is Simmons, which  
offers a wide variety of items. For  
instance Simmons manufactures

quality sets.

A home would never be com-  
plete without the proper lighting  
facilities. This long established  
store sells lamps of all kinds, in-  
cluding floor, table and wall. It  
is a great relief to know that the  
minute one steps into a store and  
describes the type of lighting  
needed, Mr. Raymond can sug-  
gest the type and style for one's  
particular needs. It is this advice  
that people have been depending  
on for 36 years, so that they are  
able to buy with confidence.

A number of young parents have  
solved their children's comfort  
problems by purchasing from the  
exclusive line of Thayer cribs,  
high chairs, baby carriages and  
many other items.

Thayer is the largest, most de-  
pendable name in baby products.  
Wise shoppers will take advan-  
tages of the many items featured  
in the Raymond August furniture  
sale. Top quality merchandise of  
every kind is offered at reductions  
which offer sensible bargains to  
discriminating customers.

## Exciting New Disney Movie Plays Majestic

Walt Disney's technicolor pro-  
duction of "The Light In The For-  
est," crammed full of excitement  
and romance of the early days of  
pioneer America, opens Wednesday  
at the Majestic Theater.

Set in the year 1764, the picture  
unfolds the story of a white youth,  
Johnny Butler, raised by the Dela-  
ware Indians, who goes to live in  
the township of Paxton, where he  
runs into a group of Indian-hating  
white men. Johnny rebels against  
the injustice and prejudice of the  
group, the Paxton boys, and seeks

to return to his adopted tribe.

The thrilling adventures sur-  
rounding his rebellion, the wise  
counsel of scout Del Hardy, his  
tender romance with the beautiful  
Shenandoe and his mixed loyalties  
to the Indians and townsmen pro-  
duces a suspenseful, exciting film.

In the role of the Indian-bred  
Johnny Butler is James MacArthur,  
who was an immediate hit in his  
first motion picture, "The Young

Stranger." Fess Parker of "Davy  
Crockett" fame handles the difficult  
role of the scout, Del Hardy, with  
skill. As Parker's romantic objective,  
actress Joanne Dru is delightful in  
the part of Milly Elder, John McIn-  
tire plays her father, Parson John  
Elder, leader of the Paxton boys.

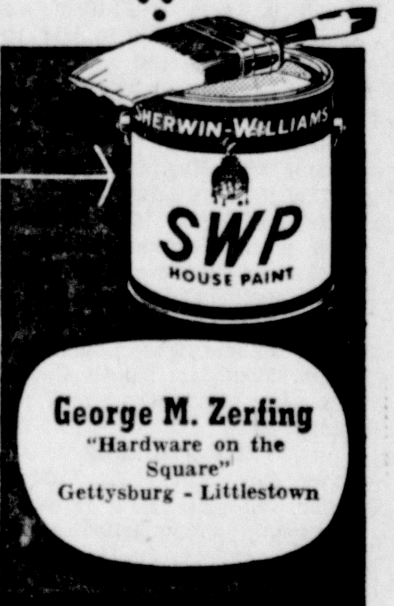

Wendell Corey, one of the screen's  
top dramatic actors, portrays the  
role of Uncle Wilse, member of the  
Paxton boys and an out-spoken  
Indian hater. Broadway actress  
Marian Seldes plays Aunt Kate,  
his wife. Jessica Tandy gives  
warmth to the role of Johnny But-  
ler's mother, and Frank Ferguson  
plays the part of his father. Young  
Rafael Campos of television por-  
trays the role of Half Arrow, John-  
ny's Indian pal. In the part of  
Shenandoe, beautiful teen-ager  
Carol Lynley makes an auspicious  
movie debut.

There are many thrilling scenes  
in the motion picture. One of the  
highlights of the film is the raging  
fight that erupts between Uncle  
Witse and Johnny Butler. Wilse, who  
had hit Johnny without provocation,  
needed him by making a practice

**Boling Breaks Record With Speedy Bonanza**

SEATTLE (AP)—Aided by tailwinds and with a new nonstop record already logged, distance flyer Marion (Pat) Boling winged swiftly toward Seattle today and heaps of rest, maybe.

Boling broke the old nonstop flight record for single-engine aircraft Thursday night as his blaze-orange Beechcraft Bonanza cruised steadily through the black night above the Gulf of Alaska 76 miles east of Cold Bay, at the base of the Aleutian Islands.

The 43-year-old Palo Alto, Calif., airline pilot did not say in radio reports whether he would set down here or continue, perhaps to Wichita, Kan., where his plane was built.

Boling broke the 4,927-mile record set in 1949 by the late Capt. William Odum from Honolulu to Teeterboro, N.J. Odum also was flying a Beechcraft Bonanza.

Turkey has frequently changed the name of its major cities. Constantinople was changed to Istanbul; Smyrna to Izmir; Bursa to Bursa; and Angora, the capital, was changed to Ankara.

## THE CHURCH FOR ALL . . . ALL FOR THE CHURCH

The Church is the greatest factor on earth for the building of character and good citizenship. It is a storehouse of spiritual values. Without a strong Church, neither democracy nor civilization can survive. There are four sound reasons why every person should attend services regularly and support the Church. They are: (1) For his own sake. (2) For his children's sake. (3) For the sake of his community and nation. (4) For the sake of the Church itself, which needs his moral and material support. Plan to go to church regularly and read your Bible daily.

Day	Book	Chapter	Verses
Sunday	Psalms	96	1-13
Monday	Psalms	72	1-20
Tuesday	Psalms	61	1-8
Wednesday	Matthew	7	24-28
Thursday	Hebrews	13	6-8
Friday	Revelation	22	1-5
Saturday	Psalms	119	137-144

Rocks and a relentless sea . . . stone sentinels . . . waves broken into misty foam . . . then caves and clefts and briny pools of rounded sculpture.

Who wins the endless fray? Today it may be the rocks, tomorrow the sea! Yet man goes on building his cities, tilling his soil, believing in his God.

Is not this the parable of all life? Time, like an ocean, floods relentlessly over the shores of life. Today sure! Tomorrow uncertain. But we go on building and tilling—and if we understand the parable—believing in the One whose love and power control today and tomorrow.

There is Something in life more certain than the rocky coast . . . more persistent than the crashing wave. It is the call of God to faith. It is the firm, sure Message of the Church to a battered, changing world!

## Sunday School Lesson

By H. R. and M. C. Gold

### GUARDING OUR FREEDOMS

Amos 7:10-15

Galatians 5:1, 13-18, 25

Key Verse: If you continue in my word, you are truly my disciples, and you will know the truth, and the truth will make you free. John 8:31-32.

God has not always chosen priests or prophets to direct messages to the people. Many a layman, never ordained or publicly commissioned, has conducted a campaign for justice and right principles of living with God's approval and divine guidance. This occurred in the eighth century B.C. when Amos, a simple herdsman of Tekoa, was called to expose and protest the idolatrous practices of the Northern Kingdom. The name Amos means "burden-bearer" and he saw around him the starving peasants who could claim no rights or receive no justice. Instead of minding his business as sheep herder and dresser of sycamore trees, he was impelled to visit Bethel—the scene of his recorded message.

Although Amos prophesied for forty years the essence of his message and his intense and vigorous campaign for social justice stands as a pattern and challenge for the consecrated Christian layman today. He went to the center at Bethel, where Amaziah, the idolatrous high priest, held forth in the temple and Jeroboam, the king, had his summer palace. The burden of his message was to warn the people of the abuse of their freedom by denouncing calf worship, arrogance, oppression and all the other sins that prosperity can bring.

### Prophet Not Welcomed

Naturally a prophet of the Southern Kingdom was not welcomed in the religious center of the Northern Kingdom (Israel). Amaziah denounced Amos as a dangerous conspirator, telling him to go back to Judah to prophesy. Amos made no special claim on his own account, but spoke, "The Lord took me from following the flock, and said to me, 'Go, prophesy to my people Israel.'" Amos had often come to Bethel to market his sheep and he knew the life of the community. His life spent high on the hills of Tekoa (the present grazing spot for sheep and goats) had developed his sense of man's essential freedoms. Now he hoped to influence the people to return to God and correct the existing social and religious practices. Such a prophet rarely meets acclaim! Freedom is not achieved easily as Americans have reason to know. We cherish our freedoms but when we fail to protect them they are in jeopardy. Current history provides many, many examples of the failure of nations to guard their freedom. Freedom is born in the hearts of individuals and isn't a selfish trait. True freedom means loving citizens are free and willing to guard the freedom of other peoples and nations also. This is the basis of international respect and good will.

### "Greed And Corruption"

Freedom is threatened by greed and corruption, by prejudice which induces hate and injustice. Every race riot, every demonstration of social or economic inequality weakens the social fabric of a nation. Freedom does not mean a person has license to be uncontrolled; it really comes only with discipline of mind and spirit.

Paul felt the same urgency as Amos when he wrote to the Galatians who were conforming to religious ceremonialism to the point that they were actually forfeiting their freedom. These stubborn and impulsive young churchmen accepted Paul's message but also clung to the Jewish ceremonialism, trying to make the Gentiles Jewish proselytes. This caused untold trouble for Paul and he rallied them by declaring, "For freedom Christ has set us free; stand fast again to a yoke of slavery."

Paul urged that the young congregation "through love be servants of one another." Instead of a bondage of rites, sacrifices, etc., they should develop a strong and enduring bond of loving fellowship. Both Amos' and Paul's message have real meaning for our world where nuclear weapons induce fear rather than sustain freedom. Only God's truth can make and keep men free.

### Radar Speed Check Proposed For Penna.

BEDFORD, Pa. (AP)—A proposal that radar be legalized for use in determining speeds on highways is under consideration by Gov. Leader's Traffic Safety Council.

The proposal is part of a broader program titled "A 10-year Blueprint for Traffic Safety" that was studied by the Council Thursday at the opening session of its two-day meeting.

Other proposals in the program include chemical tests to determine the degree of intoxication of motorists and periodic driving tests for licensed drivers.

# MORMONS READY HUGE PAGEANT FOR AUGUST 7

By TOM HENSHAW  
Associated Press Religion Writer

One of the largest and most spectacular of all religious pageants opens its 17th three-day season next Thursday on a sacred hillside a few miles south of Palmyra, N. Y.

It's called "America's Witness for Christ" and it depicts the events which led up to the founding of the Church of Jesus Christ of the Latter Day Saints, whose members are called Mormons.

The Hill Cumorah is to Mormons what Mt. Sinai is to Jews. Mormons believe that it was there 181 years ago that Joseph Smith, guided by the Angel Moroni, found the golden Book of Mormon.

**Volunteers Busy**  
Right now, some 350 volunteer Mormons are busy learning parts, setting up the five major and 20 secondary stages, laying the wiring for lights and stereophonic sound system and other chores.

The acting, directed by Dr. Harold I. Hansen, chairman of the Department of Speech and Dramatic Art at Brigham Young University, is done in pantomime. The principal speaking roles are taped.

Everything about the pageant is big, including the music (on tape) of the 10,724-pipe organ from the Tabernacle in Salt Lake City and the 500 gallons of water used as spray with colored lights to create the illusion of visions.

**Huge Audience**  
Last year some 100,000 persons, less than 5 per cent of them Mormons, viewed the spectacle during its three-night run. About the same number is expected this year.

Non-Mormons attending the pageant will see some familiar scenes—like the crucifixion of Jesus Christ—but most of the

## Eastern Jockey To Ride In Arlington

CHICAGO (AP)—A dozen probable starters, including Mrs. Connie M. Ring's speedy colt, Harry Brand, are expected to go in Saturday's 29th running of the \$150,000 Arlington Futurity at Arlington Park.

Mrs. Ring has engaged Bill Boland, the Eastern jockey, to pilot Harry Brand in the six-furlong event for 2-year-olds. Boland, an apprentice in 1950, won both the Kentucky Derby and the Belmont Stakes with King Ranch's Middleground.

In the Arlington, Harry Brand and Boland will have at least 11 other good juveniles to beat, including Cedar Brook who will be ridden by newcomer apprentice Jack Leonard.

Other likely starters include Restless Wind, Demobilize, Peter The Hermit, Dunce, Prybu, Namon, Steno Bill, John Bruce, Clintonville and Master Palynch.

**BOULDER, Colo. (AP)**—Here's why Denver University, despite good teams, won no points in the 440 and 880-yard relays at the Colorado University games:

In the quarter mile event, Denver finished second to Colorado but was disqualified—its second runner, Harry Douglas, bumped a New Mexico runner after the exchange of batons.

In the 880, the first three Denver runners ran like crazy, but there was no one to pass the baton to on the final leg. The D.U. anchor man, Dayton Smith, was in the fieldhouse watching the pole vault, moved indoors because of bad weather. He thought the race was later.

scenes will include events not generally known outside the Mormon Church.

For instance, there's the prophet Nephi prophesying the birth and death of Christ, Samuel the Lamanite warning his people of evil and the angel Moroni instructing Joseph Smith on the Book of Mormon.

# MAJOR MISSILE BREAKTHROUGH IS ANNOUNCED

INGLEWOOD, Calif. (AP)—A major breakthrough in missilery was announced today by Maj. Gen. Bernard A. Schriever, commander of the Air Force Ballistic Missile Division.

The development: an all-inertial guidance system—months, perhaps years, sooner than the Air Force had hoped.

The Air Force has been using radio-controlled inertial guidance systems for its missiles. All-inertial guidance frees missiles from any need for control from the ground, with these big advantages:

1. Such missiles cannot be "jammed" by enemy radio and radar and thus diverted from their target.
2. Missile bases using the all-inertial guidance system can be dispersed easily and hidden from enemy detection. Underground bases will not be betrayed by the presence of antennae.
3. Millions or even billions of dollars can be saved through construction of less-elaborate ground facilities.
4. Space ships, the big brothers of today's missiles, will be able to guide themselves far beyond the range of radio and radar. Up to now, space-trip plans have been limited to Mars and Venus because radio guidance needed to keep space ships oriented with earth will not reach much farther. The new breakthrough means a space ship can use any object in the heavens as an orientation point.

## COOL HIDEAWAY

LANCASTER, Ohio (AP)—Thieves here found a cool place to store some "hot" loot.

Investigating a breaking and entering at an unoccupied dairy, police found the freezer had been used to store food items, clothing, tools and other goods apparently stolen in the locality.

## FREELAND RAPS VETERAN CARE

HARRISBURG (AP) — The failure of many veterans to get needed hospital care is causing grave concern and "hopeless despair" in these men and whom we owe so much."

Col. William B. Freeland, deputy adjutant general for veterans' affairs, made the statement Thursday in a bid for a "clear-cut decision and understanding between the Congress and this administration in Washington" on the policy for treating sick veterans.

Freeland said he felt the government had an obligation to provide hospitalization and medical care for all veterans who are unable to pay private hospital or medical bills.

"During this period of economic depression many of our veterans are out of work through no fault of their own," he said. "Many of these veterans—sick, discouraged and desperately in need of hospitalization—are told that there are no beds for them in VA hospitals because their condition has not been proven service-connected."

## STEEL RAISES HIT ONE-THIRD OF PRODUCTION

By JOHN MOODY  
PITTSBURGH (AP)—Manufacturers who use flat sheets and strips of steel paid more for raw material today, and other fabricators wondered how long it would be before they too will be faced with higher steel prices.

U.S. Steel, top producer, and Bethlehem Steel, second-ranked, made a selective price hike industry-wide Thursday when they joined an increasing number of smaller firms in hiking the price of flat rolled products. These products account for about a third of the steel sold.

U.S. Steel estimated the average increase at \$4.25 a ton while some other companies figured it at \$4.50 a ton.

**Aluminum Rise**  
The Aluminum Co. of America also posted a 7-10 of a cent per pound price increase of pig aluminum to become effective today. The new price will be 24.7 cents a pound.

**STATE DRAFT QUOTA**  
HARRISBURG (AP) — State selective headquarters fixed Pennsylvania's draft quota for September at 773 Thursday out of a national quota of 11,000.

Mr. James A. McGrain of R. 2, Gettysburg, Pa., says, "I'm kept pretty busy all day. So, when I come home I don't want to spend a lot of time worrying about things that have gone wrong. I like efficiency — and that's why I'm sold on our electric water heater."

"It's completely automatic. Nothing to bother about — no pilot light to think about. And lots of hot water — anytime — for any reason. I think our automatic electric water heater is one of the best investments we've ever made. Wouldn't be without it!"

Items as oil tubing, structural steel and heavy steel plates as well as wire products. Manufacturers and fabricators are expecting these also to be increased.

It was the first time since World War II that U.S. Steel has not moved first to adjust prices. This time the traditional pace setter sat back while Armco Steel announced last Tuesday it would increase prices.

In Washington, news of the steel price increase prompted Sen. Estes Kefauver (D-Tenn.), chairman of the Senate Antitrust and Monopoly subcommittee, to call a subcommittee meeting today to discuss the pricing action.

Kefauver said he will recommend that the committee resume an investigation of steel pricing practices.

## SAINT-LAURENT LOW NECKLINE, HAS LOW SKIRT

PARIS (AP) — Dior designer Yves Saint-Laurent today lowered the hemline by several inches—to about 15 inches from the floor.

Saint-Laurent's hemline was up to five inches lower than those of other Paris fashion houses whose fall and winter collections have been shown so far. Their skirts have cleared the floor by as much as 20 inches.

The House of Dior's new "curve" line curves both shoulders and skirts. The silhouette is short-waisted but not truly Empire.

Whose Ship Shows

A five-inch drop in length caught every other major house with skirts hiked up to the knee.

The difference in the Dior mid-calf length is enough to look revolutionary — especially as it is combined with an entirely new shape.

Saint-Laurent's silhouette is of perfectly rounded, medium fullness caught in with unpuffed folds or pleats by a belt a couple of inches below the bustline.

It has little or nothing in common with the high-waisted, short-skirted Empire line seen everywhere else this season.

Master Of The Mode

It looks as if young Saint-Laurent, having tasted success with his first collection last spring, wants to show who is "master of the mode."

Applause, which started early in the showing, broke out time and again and swelled to an upsurge at the end of the show.

The "curve" line appeared first in a suit. The jackets were scooped up in front with the skirts standing off the hips and curving gently in at the midcalf hemline.

Neckline Cuts Model

Cape coats covered matching dresses in the same silhouette but by cocktail clothes time, some skirts had dwindled down to slender tubes ample enough not to touch the body while others swelled out in puff balls.

Necklines are so low-scooped that they cut Dior's star mannequin out of the parade. Exotic Alla, watching from the audience, said she was too thin to wear the

## Air Force Postpones Thursday Thor Firing

CAPE CANAVERAL, Fla. (AP) — The Air Force ran into technical troubles again in its latest attempt to shoot a 1,500-mile Thor ballistic missile.

The postponement of the launching Thursday followed in the wake of an Atlas intercontinental ballistic missile scrub earlier in the week.

The Air Force said both missiles would be rescheduled for firing at an early date.

The last launchings of both the Thor and the Atlas ended abruptly with blowups shortly after take-off.

## SEVERE STORMS HIGH WINDS HIT EASTERN AREAS

By THE ASSOCIATED PRESS

Rainstorms lingered in Pennsylvania until the very end of one of the wettest Julys on record.

A series of severe thunderstorms swept across the eastern part of the state yesterday and last night. The U.S. Weather Bureau at Philadelphia's International Airport said the storms were accompanied by 40-mile-an-hour gusts in some sectors.

Heavy rain was reported in Westmoreland, Beaver, Lawrence, Butler and Armstrong counties in the western part of the state. Washington had nine inches of rain in July, a 40-year record. Lesser amounts were reported in the northeastern counties.

Two Games Delayed

The Pirates-Chicago Cubs game at Pittsburgh was delayed 40 minutes and the Phillies-St. Louis game at Philadelphia was delayed an hour and a half by the rains.

As much as one inch was reported in the Philadelphia and Allentown areas.

Flooded cellars and stalled automobiles were common in Philadelphia and suburban areas. Flooded street intersections and similar

new decolletage, which is revealing indeed. As one spectator remarked: "If you wear that, you'd better not sneeze."

## HOLD DIVORCEE IN SLAYING OF DRUG OFFICIAL

INDIANAPOLIS (AP) — Detectives waited impatiently today for an attractive divorcee to regain consciousness so they could question her about the fatal shooting of a prosperous pharmaceutical executive.

Mrs. Connie Nicholas, 40, who was sought for questioning in the fatal shooting of Forrest Teel, a handsome 54-year-old executive vice president of Eli Lilly & Co., was found Thursday night in her parked car in a lover's lane in Indianapolis.

She was booked on a preliminary charge of murder.

Attempted Suicide

Detective Phil Sanders said the curvaceous Mrs. Nicholas, a physical culture enthusiast, apparently tried to commit suicide by drinking fruit juice containing sleeping pills. She was taken to General Hospital in critical condition.

A .25-caliber pistol, similar to the one that killed the wealthy businessman, was found in Mrs. Nicholas' purse.

Sanders said four bullets had been fired from the small pistol. Three slugs were found in the body of Teel and another slug was found in his white Cadillac.

Long Acquaintance

Teel, who died after his car backed in wild circles out of a parking lot, was in charge of all marketing of drugs made by the Lilly company — a business of 200 million dollars a year.

Sanders said Mrs. Nicholas had been seeing Teel for about 15 years. She first met him while working at the Lilly firm.

The detective said there was an indication of a love-triangle. He said witnesses indicated that Teel was trying to break up with the petite Mrs. Nicholas and had been dating a younger girl.

Teel, married and the father of a 14-year-old son, was shot to death in his car near a fashionable apartment area, a few miles from where Mrs. Nicholas was found.

ULCER-LAND TO GANGLAND

NEW YORK (AP) — One of the many juvenile gangs causing the city concern over delinquency problems seems to have taken Madison Avenue as its model in at least one department. The gang uniform is grey flannel suits and narrow striped neckties.

Situations were reported at Allentown and in New Castle, Ellwood City and other communities.

Allentown reported three cave-ins on city streets. There was little lightning and thunder and no power interruptions there.

## ROCKET CHIEFS WORRY ABOUT 'SPACE' JAMS

By ALTON BLAKESLEE  
Associated Press Science Writer

MOSCOW (AP)—Rocket experts are taking a look at the problem of preventing space traffic jams and getting rid of old man-made moons.

Do you blow up useless satellites, shoot them into the sun, send them skyarking into the cosmos or bring them back home?

Right now just four satellites are circling the earth — a huge Sputnik and three small U.S. moons. But one day there could be hundreds from numerous countries.

Collisions would be a remote chance, but the dead soldiers could be a nuisance, interfering with other and better experiments or space travel.

Dangerous Space Junk

Blowing up the old satellites with time bombs is no solution because the pieces would still orbit and become dangerous space junk. Ways might be worked out to recover them if they are close to earth, to send them falling into the sun to be consumed or to send them jaunting further into space, off the beaten tracks.

The question of how to recover or destroy satellites whose mission is complete is on the agenda of the Committee on Rockets and Satellites at the special meeting of the International Geophysical Year Committee under way here.

## RECRUIT DIES AS ARMY DRILL FOLLOWS SHOTS

FT. JACKSON, S.C. (AP)—The commanding general of this Army Infantry base was quoted by a dead recruit's father today as saying that trainees no longer would be given medical shots and then sent out to drill in hot weather.

Hobart L. Brinsmade of Bronxville, N.Y., said his son Hobart Jr., 21, died after being given booster shots for typhoid fever Wednesday and then being made to drill for 3½ hours in the sun.

Young Brinsmade, only two weeks in the Army, played right tackle for Princeton's football team in 1956 and 1957. He stood 6-3 and weighed 230 pounds.

Dies Thursday

The father said he talked with the Ft. Jackson commander, Brig. Gen. Christian Clarke, about the incident and that he was "most sympathetic."

"The general assured me," Brinsmade said, "that the idea of giving the shots and then sending the boys out to drill right away would be discontinued in hot weather."

Young Brinsmade died Thursday night in the base hospital.

SAM MAKES GOOD

MADISON, Wis. (AP) — A portrait of Sam Pierce, who was born in New Orleans just seven years after his parents were freed from slavery, was hung recently at the Wisconsin Historical Society building among those of other state notables.

Pierce was executive messenger to five Wisconsin governors. He died in 1936.
